

Voyage to Antarctica

Discover the Antarctic Peninsula, where endless white mountains roll to the horizon and massive glaciers churn icebergs into the sea. Travel with a diverse team of experts aboard one of our three state-of-the-art expedition ships. Venture into channels and coves framed by towering peaks. Watch for whales off the bow; glide around enormous icebergs in Zodiacs; and hike, kayak, and even possibly cross-country ski in complete tranquility. Choose an active agenda or surrender to the pleasures of relaxing downtime and shipboard camaraderie. Plus, get top shots with the help of a National Geographic Photography Expert.

Day by day

■ DAY 1

Buenos Aires, Argentina or Santiago, Chile

Arrive in Buenos Aires, the cosmopolitan capital of Argentina, or Santiago, Chile's mountainous capital.

In Buenos Aires: Transfer from the airport to the Alvear Art, or similar (*National Geographic Endurance*).

In Santiago: Transfer to the Ritz-Carlton, Santiago, or similar (*National Geographic Resolution*).

Arrival Time: Arrive before 11:00 a.m. local time.
Arrival City: Buenos Aires, Argentina or Santiago, Chile

◇ DAY 2

Fly to Ushuaia, Argentina / Embark Ship

Join the recommended flight to Ushuaia; transfers to the airport and luggage assistance will be provided. Sandwiched between ice-mantled peaks and the frigid waters of Beagle Channel, this is a fittingly wild place to be known as "El Fin del Mundo" or "The End of the World." Before departing, visit Tierra del Fuego National Park, clad in dense beech forest just as much of Antarctica was millions of years ago. Savor lunch onboard a private catamaran as you cruise the Channel, keeping an eye out for plump South American sea lions and sleek seabirds like the imperial cormorant. By day's end, you'll be comfortably on board your ship and ready to meet the White Continent.

Meals included: breakfast, lunch, dinner

◇ DAYS 3-4

At Sea Crossing the Drake Passage

At times ferocious, at others flat calm, this legendary 500-mile-wide strait divides South America from the Antarctic Peninsula. Feel the excitement build as you begin the crossing, often accompanied by seabirds like the wandering albatross and—if luck allows—a pod of killer whales or rare dolphins. Get to know the ship and prepare for the adventures ahead. Visit the Bridge (ideal for wildlife spotting), relax with a massage or attend a talk on the unique biology of penguins. Or simply settle into a comfy chair in the observation lounge, looking out over the waves as you contemplate the history of this passage named for English privateer Francis Drake, but first discovered by Spanish navigator Francisco de Hoces.

Meals included: breakfast, lunch, dinner

◇ DAYS 5-9

Exploring Antarctica

With long hours of daylight at this time of year, you'll have ample opportunities to explore. The schedule is flexible, allowing us to take advantage of the unexpected, whether we're watching whales at play off the bow of the ship, hiking alongside penguin highways or enjoying an evening Zodiac cruise amid porpoising penguins.

While wildlife is magnificent, ice defines the Antarctic. You'll get to know ice up close and personal—from icebergs the size of islands, bergy bits and near-vertical glaciers, to the fragile, nearly invisible layers that have just begun to freeze. One day, you might set out by kayak to encounter towering icebergs at water level; embark on a Zodiac excursion in search of seals and blue-eyed shags; or walk amid thousands of Adélie and gentoo penguins. The next, you might experience

the thrill of the ship crunching through pack ice.

Everywhere you go in Antarctica you'll be surrounded by opportunities to capture uniquely beautiful images. Along the way your expert expedition team will enrich your experiences.

Meals included: breakfast, lunch, dinner

◇ DAYS 10-11

At Sea

Enjoy the ship's amenities as the coast of Antarctica disappears from view. Round the southernmost tip of South America and see the meeting of the Atlantic and Pacific Oceans. Take some time to go through your photos or send a message home to friends and family. Celebrate your voyage at a farewell dinner on board.

Meals included: breakfast, lunch, dinner

■ DAY 12

Ushuaia / Disembark Ship / Buenos Aires or Santiago

Disembark in Ushuaia, the southernmost city in the world. Take the recommended flight to Buenos Aires or Santiago and connect with your flight home.

Departure Time: Depart after 9:00 p.m. local time.
Departure City: Buenos Aires, Argentina, or Santiago, Chile

Meals included: breakfast

National Geographic Endurance

The most advanced ice-class expedition ship afloat, the *National Geographic Endurance* offers unprecedented access to polar regions.

The first new polar build in Lindblad's 50-year history, *National Geographic Endurance* is named to honor explorer Ernest Shackleton and his legendary Transantarctic Expedition.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Endurance's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside —with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships, purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow ® is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools and offer a variety of experience-enhancing amenities.
