Day by day

■ DAY 1

Santiago, Chile

Arrive in Santiago, Chile's mountainous capital. Transfer to the Ritz-Carlton (or similar).

Arrival Time: Arrive by 4:00 p.m. local time.
Arrival City: Santiago, Chile

◇ DAY 2

Puerto Natales / Embark Ship

Join the recommended flight from Santiago to Puerto Natales, Chile's gateway to Torres Del Paine National Park. Transfers to the airport and luggage assistance will be provided. Transfer to the harbor to embark the ship.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Puerto Natales / Torres del Paine National Park

Early this morning, dock in picturesque Puerto Natales before heading out to explore majestic Torres del Paine National Park, a UNESCO Biosphere Reserve. Set out by foot or by vehicle across the windswept, rugged landscape, which spans more than 550,000 acres and harbors an astounding variety of geological forms, from the soaring granite pillars of the "horns" and windswept grasslands to rivers, glaciers and gem-colored lagoons. Keep an eye out for guanacos, rheas, foxes and armadillos.

Meals included: breakfast, lunch, dinner

◇ DAYS 4-6

Tierra del Fuego / Karukinka Natural Park

Explore Tierra del Fuego, one of Patagonia's crown jewels and the southernmost archipelago on Earth. Venture through a landscape of glacier-carved mountains, sub-Antarctic forests, pristine lakes and deep fjords framed by dramatic moraines and U-shaped valleys.

At the heart of this wilderness lies Karukinka National Park, one of the largest privately protected conservation areas in the world. Established in 2004 and managed in partnership with the Wildlife Conservation Society, the park spans more than 1,160 square miles of forests, peat bogs, rivers and mountains. Explore Jackson Bay, where rugged peaks descend to the sea and black-browed albatrosses nest on small offshore islands. Keep watch for Andean condors, guanacos, foxes and other wildlife as you discover this remarkable corner of Patagonia.

Meals included: breakfast, lunch, dinner

◇ DAYS 7-9

Chilean Fjords

Sail through a pristine landscape of soaring snow-capped mountains, massive glaciers, verdant islands, serene lakes and cascading waterfalls. Wind through dramatic fjords, exploring by Zodiac and kayak in protected waters and hiking along rugged shorelines where brilliant blue ice contrasts with lush forests and wildflowers. Keep watch for Andean condors, albatrosses, grebes, petrels, shearwaters and other seabirds that thrive in this remote wilderness.

Meals included: breakfast, lunch, dinner

◇ DAYS 10-12

Inland Passage

This vast region of incomparable scenery is

seemingly untouched by humans except for a few fishing villages perched at "the end of the world." Over the next few days, you'll have multiple opportunities to hike, Zodiac cruise and kayak among snowcapped mountains, thousands of islands covered with forests, lakes, soaring granite walls and waterfalls.

One of the many highlights is the Pio XI Glacier, the longest glacier in the southern hemisphere outside of Antarctica, running some 60 miles from the Patagonia icefield to the fjord, where it noisily calves off gigantic ice masses at a rate of one every several minutes. Get up close to this impressive natural wonder on Zodiac rides.

Meals included: breakfast, lunch, dinner

◇ DAY 13

Aysén / Coyhaique / Andes Mountains

Today, choose from two options. Take a morning excursion to Aiken del Sur, a privately owned park set in a beautiful evergreen forest with lovely lakes and waterfalls, including a 75-foot-high cascade. As you walk the well-maintained trails, keep an eye out for ringed kingfishers, woodpeckers and a variety of forest birds. Cap off the walk with a Patagonian lamb barbecue (with vegetarian options) and entertainment by local musicians.

Alternatively, take a full-day excursion to the Coyhaique National Reserve, driving up into a scenic valley nestled in the Andes, with views of the snow-covered peaks. The starting point for the day's hike is Laguna Verde, "Green Lake," which you'll reach after passing through evergreen forest full of giant rhubarb and ferns into the transition zone of deciduous *Nothofagus* forest. An array of animals can be found here, including three Chilean woodpecker species, passerines, diurnal and nocturnal predatory birds, pumas and foxes. After the hike, enjoy a picnic lunch followed by time in the city of Coyhaique to see its central plaza and artisans' stalls.

Meals included: breakfast, lunch, dinner

◇ DAY 14

Tantauco Park

Located in the wildest and most remote territory of the Great Island of the Chiloé Archipelago, Tantauco Park is made up of evergreen forests, millennial cypress groves, bog plains from the last glacial period and imposing lakes and rivers. A formidable diversity of flora and fauna, including many endangered species, are concentrated within, and the park has been declared one of the 36 key sites of biodiversity on Earth, as well as a priority conservation spot in Chile. You will have a choice of walks or hikes through the forests with your naturalist guides and an opportunity to visit the museum and information center to learn more about the history, ecology and conservation work in this remote and rugged region.

Meals included: breakfast, lunch, dinner

◇ DAY 15

Castro (Chiloé Island)

Spend the day exploring Chiloé Island, which is known for its unique *palafitos*, colorful fishermen's houses precariously built on stilts along the water's edge, as well as its wooden churches, collectively designated a UNESCO World Heritage Site. The town of Castro has shops and a large open-air market where the Chileans show their wares, such as alpaca sweaters and lapis jewelry. You may choose a trip to Chiloé National Park to see its forests, wetlands and wildlife, with a selection of longer or shorter walks. Alternatively, visit some of the welcoming small communities that dot the countryside and learn about their traditional rural way of life.

Meals included: breakfast, lunch, dinner

◇ DAY 16

Pumalín Douglas Tompkins National Park

Spanning 750,000 protected acres in Chilean Patagonia, Pumalín National Park is one of the last areas where the unusual alerce forest remains. These huge trees compare in size and age to California redwoods, with some specimens reaching 2,000 years old. The Pumalín Project was established in 1995 by the late American conservationist Doug Tompkins, who wanted to preserve some of the remaining virgin forest in Chile. Walk through the forest with naturalists, visit a hidden waterfall or climb along a rushing stream and look for forest birds along the trail. In the afternoon, head for the Golfo de Corcovado in search of Magellanic penguins, sooty shearwaters, dolphins and, with luck, whales.

Meals included: breakfast, lunch, dinner

■ DAY 17

Puerto Montt / Disembark Ship / Santiago

Disembark in Puerto Montt and enjoy free time to explore before transferring to the airport for your recommended flight to Santiago and onward connections.

Departure Time: Depart after 9:00 p.m. local time.
Departure City: Santiago, Chile

Meals included: breakfast

The sister ship to *National Geographic Endurance*, she explores polar & temperate regions

Our second new polar build, *National Geographic Resolution*, is named to honor the second voyage of the legendary Captain James Cook. A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enableadventurous guests to go where few have or can. Resolution's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside — with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow ® is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.

Self-Disinfecting Ships

ACT Clean CoatTM is a light-activated, self-disinfecting cleaning process that continuously breaks down viruses, bacteria, mold, and airborne allergens across all ship surfaces. Not only does this create a cleaner, healthier shipboard environment for guests and crew alike, but this non-toxic, chemical-free system also saves more than one million gallons of water each year in our cleaning procedures, and reduces our carbon footprint as well as the amount of plastic and waste in our supply chain.

National Geographic Orion

Joining the Lindblad fleet in 2013, the state-of-the-art *National Geographic Orion* serves as a luxurious base camp for voyages to the far-flung corners of the planet.

Built in Germany by the Cassens shipyard, the 102-guest *National Geographic Orion* was created with a high ice class to be able to venture safely into polar regions. A ship of her size is seldom built with such ice-cutting ability, which makes her a rarity. She is yacht-scale, yet rugged enough to venture far afield, making her a perfect addition to the Lindblad fleet, which she joined in 2013. Her size and nimbleness offer the perfect combination of safety and liberty to voyage untrammeled locations. In fact, *National Geographic Orion* currently holds the distinction of having sailed further south than any other Lindblad vessel.

Her menu, created by famed Australian chef, Serge Dansereau, owner of Sydney's acclaimed Bather's Pavilion restaurant, enormously popular with *National Geographic Orion*'s guests, so impressed Sven Lindblad, that Serge, a chef-owner who shared the Lindblad commitment to serving local and sustainable food, was enlisted to design the dining program for the entire National Geographic-Lindblad Expeditions fleet.

National Geographic Orion is gracious and intimate, with a rewarding, almost clubby feeling. Of her many amenities and features, the most appealing is her outside deck space which beckons in the balmy reaches of the Pacific, and on those days in Antarctica when the midnight sun and the spectacle of the ice makes going indoors, let alone going to bed, impossible.
