

Baffin Island: Exploring Canada's Wild Arctic Frontier

Sail across the Davis Strait into the remote reaches of Canada's High Arctic, where sheer cliffs rise from the sea, ancient ice floes drift past the bow and charismatic wildlife thrives in one of the most untouched ecosystems on the planet. Baffin Island, with its vast, roadless landscape, is the centerpiece of this extraordinary voyage and you'll venture deep into its seemingly inaccessible network of icy bays, inlets and fjords aboard the purpose-built *National Geographic Resolution*. This is true expedition travel, and your days will be guided by the ice, weather and wildlife as your naturalists, historians and photographers deepen your understanding of the land and daily life in the Arctic.

Day by day

■ DAY 1

Reykjavík, Iceland

Arrive in Reykjavík, the world's northernmost capital. Transfer from the airport and spend the day exploring the city at your own pace. Check in with the hospitality desk at your hotel this afternoon to make final arrangements before your charter flight the following day.

◇ DAY 2

Reykjavík / Nuuk, Greenland / Embark Ship

Fly from Reykjavík on the recommended flight to Nuuk, Greenland's thriving capital city, where you'll embark the *National Geographic Resolution*. Settle into your cabin and then be on deck to enjoy a scenic sailing out of Nuuk fjord as the ship navigates north along the coastline and into open waters.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Crossing the Davis Strait

Spend the day at sea crossing the Davis Strait, which connects the Arctic and Atlantic Oceans. Listen to expert talks from your expedition team, relax with a book in the lounge or hang out on the Bridge or the observation deck, keeping an eye out for whales as the ship travels across the continental shelf.

Meals included: breakfast, lunch, dinner

◇ DAYS 4-10

Exploring Baffin Island, Nunavut, Canada

Over the next six days, explore the natural wonders of Baffin Island, Canada's largest island and the fifth largest in the world. Known as Qikiqtaaluk by Inuit and inhabited for over four thousand years, the shores of this majestic island are rife with opportunities to step back in time and discover one of the most remote areas of the planet like the earliest explorers who came before.

With no set itinerary, your veteran captain and expedition leader will decide on routes and activities in real time as they respond to the day's elements and wildlife sightings, navigating the state-of-the-art polar ship further into the ice to uncharted fjords or returning to favorite landing sites.

As you head south, you'll experience the region's breathtaking landscapes, defined by glaciers, waterfalls and towering peaks, and watch for the wildlife that inhabits these waterways and rugged isles such as polar bears, seals, whales and, with luck, maybe even the elusive narwhal.

Meals included: breakfast, lunch, dinner

◇ DAY 11

Crossing the Davis Strait

Sail across the Davis Strait once more as you reflect on your experience in the far reaches of the globe, exchanging stories with your fellow travelers or editing photos with the help of your certified photography instructor. Take advantage of the ship's amenities one last time with a relaxing spa treatment from your wellness specialist, a dip in the infinity-style hot tub or a session in the sauna as you take in the ocean views.

Meals included: breakfast, lunch, dinner

◇ DAY 12

Nuuk / Disembark Ship / Reykjavík, Iceland

Disembark in Nuuk and join the recommended group flight to Reykjavík. Transfer to the nearby hotel for an included overnight stay.

Meals included: breakfast, lunch, dinner

■ DAY 13

Reykjavík

Transfer to the airport for flights home.

Meals included: breakfast

The sister ship to *National Geographic Endurance*, she explores polar & temperate regions

Our second new polar build, *National Geographic Resolution*, is named to honor the second voyage of the legendary Captain James Cook. A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enableadventurous guests to go where few have or can. Resolution's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside — with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow ® is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
