Day by day

■ DAY 1

Osaka, Japan

Arrive in Osaka and transfer to your hotel.

◇ DAY 2

Osaka / Embark Ship

After checking out of the hotel, travel to Himeji Castle, one of Japan's most spectacular. Also known as "White Heron Castle," this UNESCO World Heritage site is at once imposing and elegant. Following lunch, transfer to the *National Geographic Resolution* for embarkation.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Naoshima / Okayama / Kurashiki

This morning, take a short ferry ride to Naoshima Island, which was converted into a hub for art and artists by the Benesse Corporation in 1992. Naoshima is an eclectic mixture of nature, art and architecture–you'll discover famous works, like Yayoi Kusama's *Yellow Pumpkin*, displayed in unexpected places.

This afternoon, choose to visit Okayama, home to Korakuen Garden, one of the three best landscape gardens in Japan. Stroll the elegant garden paths, enjoying the beauty and the views of Okayama Castle and its impressive black silhouette. You may also choose to walk along Kurashiki's lovely canal, lined with beautifully preserved storehouses now selling locally made handicrafts, or visit the Ohara Museum of Art and the Ohashi House, an example of a wealthy merchant's home from the 18th century.

Meals included: breakfast, lunch, dinner

◇ DAY 4

Takamatsu

Early this morning, sail to Takamatsu on Shikoku Island. Explore Shikoku Mur, an open-air museum that showcases traditional building styles. Learn how people lived during the Edo and Taisho eras. Visit Ritsurin Garden–earning three stars in the Michelin Green Guide, it is one of the most beautiful gardens in all of Japan. End the day at Kinashi Bonsai Town, dedicated to the art of pine tree bonsai.

Meals included: breakfast, lunch, dinner

◇ DAY 5

Miyajima / Hiroshima

Start the day on the island of Miyajima, home of Itsukushima Shrine, a UNESCO World Heritage site famed for its red torii gate that seems to float atop the water at high tide. In Hiroshima, visit the Peace Memorial Park, see the Atomic Bomb Dome, one of only a few buildings left standing after the attack and learn about the city's dedication to peace following World War II.

Meals included: breakfast, lunch, dinner

◇ DAY 6

Uwajima / Uchiko

Rise early for a morning hike to Uwajima Castle, one of just 12 original Edo-period castles that remain intact. Continue to Uchiko, once a center of wax production. Take a walk in the town's well-preserved Yokaichi district, where beautifully crafted wooden merchant homes recall the prosperity of the Meiji period.

Meals included: breakfast, lunch, dinner

◇ DAY 7

Yakushima Island

The diverse ecology of Yakushima Island, including a subtropical coast and temperate rainforest in the interior, has earned this island World Heritage status. On a hike, discover the island's ancient Yakusugi cedar trees, many of which date back more than a thousand years. Back on board the ship in the evening, head north toward the island of Kyushu.

Meals included: breakfast, lunch, dinner

◇ DAY 8

Kagoshima

At the southern end of Kyushu, the city of Kagoshima sits just across the bay from the active volcano Sakurajima. Take a walk in Sengan-en Garden, designed by the city's ruling Shimadzu clan in 1658 to incorporate the bay and its simmering volcano. After lunch, travel along the Satsuma Peninsula to the village of Chiran, where the samurai designed gardens inspired by their travels.

Meals included: breakfast, lunch, dinner

◇ DAY 9

Nagasaki

Long before World War II, Nagasaki was a cosmopolitan trading center, drawing merchants from Europe and China to its picturesque harbor as early as the 1500s. Visit Oura Cathedral, the oldest Christian church in Japan and venture to Nagasaki Peace Park. A poignant exhibition illustrates the aftermath of the atomic bomb attack on the city, and a somber monument now stands at ground zero. This afternoon, chart a course for the Korean Peninsula.

Meals included: breakfast, lunch, dinner

◇ DAY 10

Ulsan, South Korea / Gyeongju

Dock in Busan and travel to Gyeongju, the ancient capital of the Silla kingdom and the crown jewel of Korea's cultural heritage. Packed with the ruins of temples, pagodas and palaces dating back more than a thousand years, the historic areas of the city have been collectively designated a UNESCO World Heritage site. Visit Bulguksa Temple, a masterpiece of Silla architecture originally built in A.D. 528. At the Gyeongju National Museum, examine jewelry, weapons and other Silla artifacts. See Cheomseongdae, a seventh-century observatory and wander among towering royal burial mounds.

Meals included: breakfast, lunch, dinner

◇ DAY 11

Matsue, Japan

Sail up the coast to Matsue, situated between a lake, a lagoon and the sea. Tour the 17th-century Matsue Castle built as a defensive fortress and discover its clever design elements intended to foil the enemy. Continue to the Adachi Museum of Art, which blends an impressive collection of 20th-century Japanese art with a gem-like traditional garden.

Meals included: breakfast, lunch, dinner

◇ DAY 12

Moji

With its location in line with the route from Honshu to Shanghai, Moji has a long history as a prominent trading post. The bustling modern day ship traffic has moved to another port, leaving Moji with a slower pace. You'll have the opportunity to step back in time and stroll the promenade, exploring the well-preserved buildings of the Meiji and Taisho periods. Moji is also known for its limestone caves. You will pass through a cedar grove to enter one of Japan's largest limestone caves: Akiyoshidai. Exploring this cave, you'll only touch a very small

corner of the national park that spans 100 meters underground.

Meals included: breakfast, lunch, dinner

◇ DAY 13

Mitarai

Located in the Seto Inland Sea, Mitarai is a seaside village that did not get swept up with all the changes and development that the 20th century brought. The traditional wooden buildings and narrow streets date back to a traditional past. The mature gardens add even more beauty and serenity to the sheltered bay. Explore this hidden gem that has been designated a Historic Preservation District of Traditional Architecture.

Meals included: breakfast, lunch, dinner

◇ DAYS 14-15

Osaka / Disembark Ship / Kyoto

Upon disembarkation, transfer to Kyoto. Once the capital of Japan, this beautiful city still holds many of the Japanese traditions very dear. It's a unique blend of modern day and ancient culture that has been refined over the last 1200 years. Spend two days exploring an array of sites, including the impressive Torii Gates of Fushimi Inari Shrine; Nishiki Market with its assortment of beautiful fresh foods; Higashiyama District one of Kyoto's best preserved historic districts; and the soaring stalks of bamboo in Arashiyama. No visit to Kyoto is complete without a glimpse into the secret life of the Geisha as you learn about the customs and experience a traditional ceremony.

Meals included: breakfast, lunch, dinner

■ DAY 16

Kyoto / Osaka

Following breakfast, check out of the hotel and transfer to the airport for flights home.

Meals included: breakfast

The sister ship to *National Geographic Endurance*, she explores polar & temperate regions

Our second new polar build, *National Geographic Resolution*, is named to honor the second voyage of the legendary Captain James Cook. A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enableadventurous guests to go where few have or can. Resolution's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside — with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow ® is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
